# We do Web apps

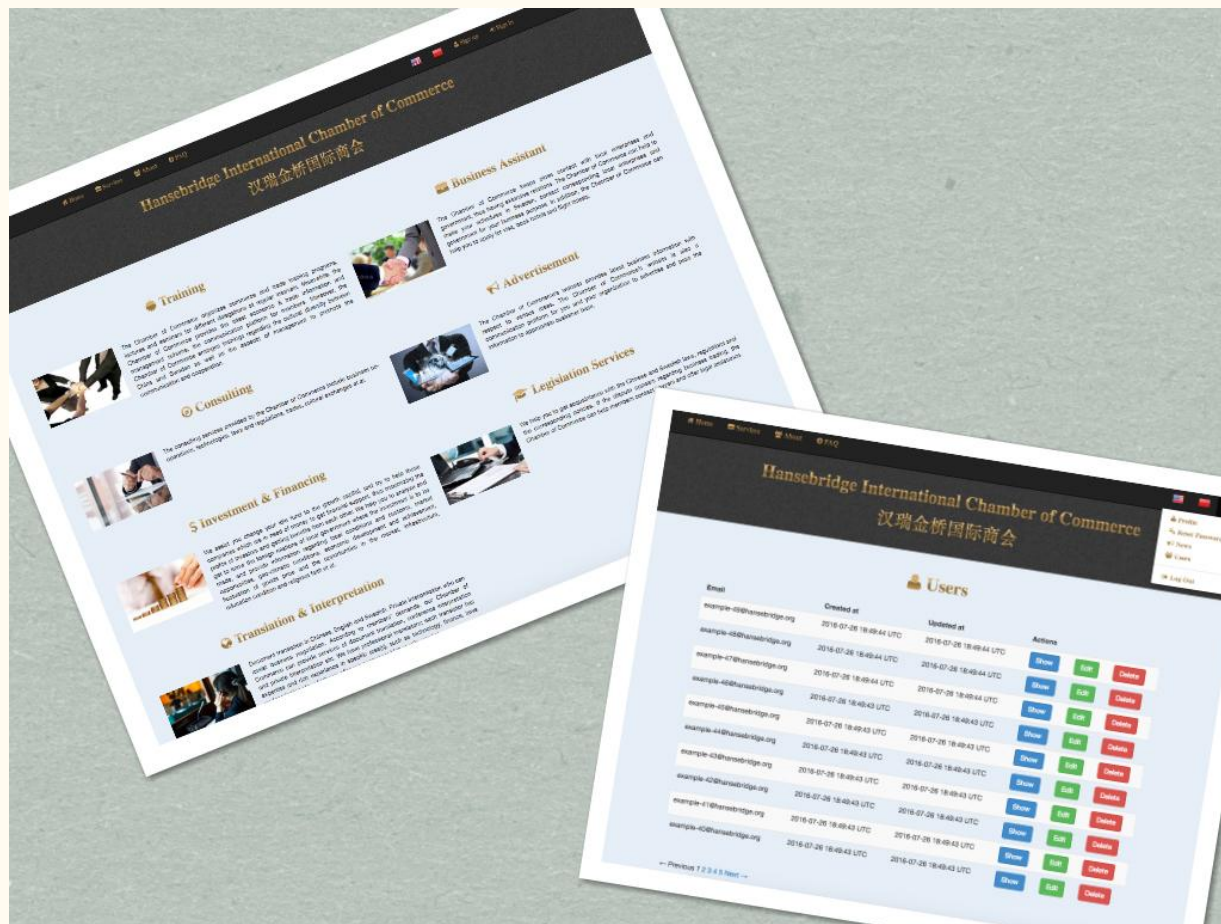

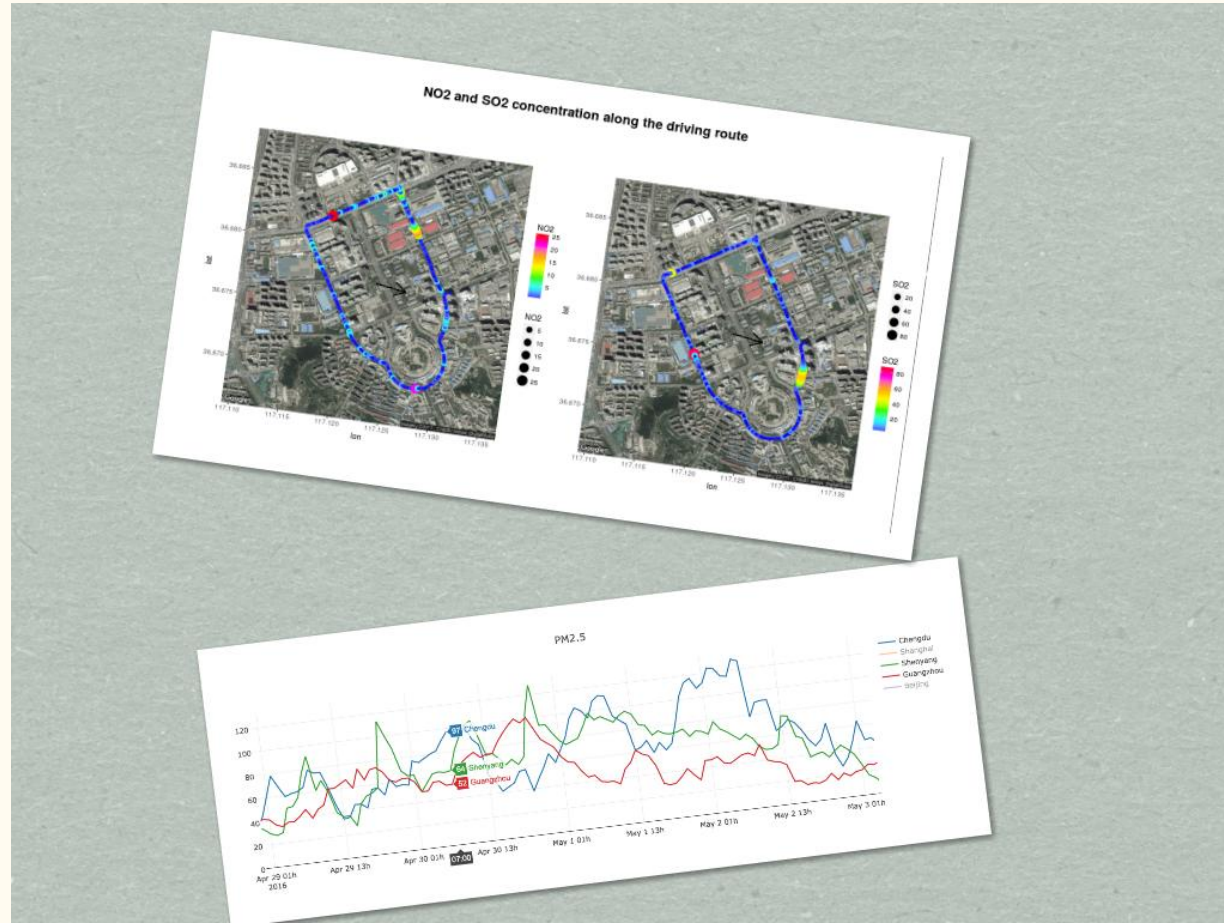

# We do Data Analytics

# We do Website

# We do Data Mining

# We do IoT / Embedded

## Vehicle Dashboard

The realtime data can be recorded and pushed from backend server or generated from simulators.

Created by [Chuan Jin](#). The source code is licensed [MIT](#).

# We do Design

# How we work

## IMPOTANT VALUES TO THE AGILE SOFTWARE DEVELOPMENT MODEL

Individuals and interactions rather than processes and tools.

Development of working software

Collaboration with the customer or client

Quickly Responding to change

**Manifesto for Agile  
Software Development**

# Brands we contribute

Mercedes-Benz

ERICSSON

CEVT

ASTON MARTIN

**SEMCON**

**COMBITECH**

RENAULT

Alibaba Group

**SKF**

# Why us

- Experience
- Passion
- 7 x 24 support
- VIP feeling
- We will say no if not match
- We work for fun, not only for money
- We try to be friends of our customers
- We contribute to Open Source to make more people benefit
- Flexible pricing models (from zero to normal cost)

# Our plan

- Keep team small & agile
- Onsite & Inhouse
- Customers projects & Research projects
- Joint product development
- Own projects → Own solutions → Own product

# Main Focus

- Backend/Frontend/Fullstack development
- CI/CD DevOps
- Data (AI, ML, Big Data)
- Mobile Apps
- IoT
- Blockchain
